

Elco van Rijswijk

PROFILE

Motivated data scientist with 5+ years of experience in data analysis and strong knowledge of machine learning and deep learning. I value an energetic work environment and thrive in a team where feedback is valued, and we can learn from each other's ideas and mistakes.

SKILLS

- Programming languages: Python, R, SQL
- Data Science & Machine Learning: Scikit-learn, PyTorch, Pandas
- Cloud & Software Engineering: Azure, AWS, Docker, Git

EXPERIENCE

BIOINFORMATICIAN

JAN 2021 – PRESENT

[Barenbrug Holland BV, Wolfheze](#)

Key responsibilities:

- Applied machine learning approaches for genomic selection
- Python package development and workflow automation
- Microsoft Azure cloud-based genomic data storage and processing
- Sequencing data pipeline development, analysis, and maintenance
- Independent research on pathways and genes

Developed and implemented end-to-end bioinformatics pipelines for research sites across Europe, improving processing efficiency and translating sequencing data into actionable insights for breeders.

BIOINFORMATICIAN (INTERNSHIP)

MAY 2026 – AUG 2026

[Barenbrug New Zealand, Christchurch](#)

Work exchange where I collaborated on different projects with international colleagues. Specifically, I analyzed a GBS dataset to compare allelic diversity in Tetraploid Self-Fertile Hybrid Ryegrass.

RESEARCH ASSISTANT

JUN 2018 – JUL 2020

[Barenbrug Holland BV, Wolfheze](#)

Tasks included assisting with greenhouse activities, harvesting and repotting plants, and setting up new experiments.

EDUCATION

MSC BIOINFORMATICS AND SYSTEMS BIOLOGY

SEP 2024 – AUG 2026

[Wageningen University & Research, Wageningen](#)

Relevant coursework: Deep Learning, Machine Learning, Modelling in Systems Biology

COMPUTING SCIENCE: DATA SCIENCE, PRE-MASTER

SEP 2023 – JAN 2024

[Radboud University, Nijmegen](#)

Relevant coursework: Security, Data Mining, Calculus

CHEMICAL AND BIOTECHNICAL SCIENCE

SEP 2021 – JAN 2022

[Aarhus Business Academy, Denmark](#)

Erasmus exchange courses as part of my Bachelor's electives

BACHELOR OF SCIENCE – BS, BIO-INFORMATICS

SEP 2017 – JAN 2022

[HAN University of Applied Sciences, Nijmegen](#)
